

Expansion of the ORAFOL Headquarters

ORAFOL – Proud recipient of award

ORAFOL recently received the prestigious “2017 Entrepreneur of the Year” award for the region of Brandenburg from the German association OSV (Ostdeutscher Sparkassenverband).

This is the 15th time the award has been granted, and OSV President Dr. Michael Ermrich stated that ORAFOL was chosen because of the company’s significant market potential

and stable growth, up-to-date marketing, as well as for the company’s positive contribution to creating jobs in the region.

Dr. Loclair, CEO of ORAFOL Europe, was presented the award at a major event held in Potsdam.

ORAFOL International:

Recent Expansions to the global presence.

Australia:

ORAFOL Australia expanded from one site to now five locations strategically positioned to cover the entire country, ensuring excellent customer service and fast delivery times to the Australian market.

USA:

Rowland Technologies was acquired in August 2017; a company specialized in the manufacture of high-quality plastic films and sheeting. The company is based in Connecticut.

Japan and South Africa:

In Japan and in South Africa ORAFOL has recently moved into new and larger facilities to hold both sales offices and warehousing.

Dubai:

ORAFOL Middle East opened its doors in 2018 to a brand new facility that includes both sales offices and warehousing. It will be the ORAFOL base towards all of the Middle East markets going forward.

ORACAL® 351 Polyester Film

NEW COLOUR

The range of popular metallised films has been expanded with one of the most popular and fashionable metal shades in recent times – Rose Gold. The new rose gold colour is available in 50 micron thickness, and comes with a glossy surface.

ORAGUARD® 244G Anti-Graffiti Film

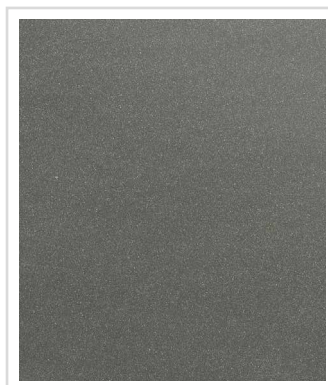

NEW!

Graffiti can be extremely costly to remove. With the new anti-graffiti film from ORAFOL you can protect your high quality prints. ORAGUARD® 244G makes it easy to wipe away graffiti. The film is UV resistant and can be cleaned without reducing its effectiveness.

ORACAL® 751C High Performance Cast

NEW COLOUR

ORACAL® 751C High Performance Cast is one of the true classics in the ORAFOL range. Although the range has been around for a long time, it is far from dormant. A new colour has now been added – Nickel, expanding the list of metallic shades even further.

Great new products for the Car Wrapping Market Introduced at FESPA 2018

ORACAL® 7710RA Long Term Premium Fluorescent Cast

NEW!

ORAFOL's range of fluorescent films has been extended with an improved version, specifically developed for application onto emergency services vehicles. The new ORACAL® 7710RA comes in fluorescent yellow and fluorescent red, and offers extended durability as well as improved application properties.

ORAGUARD® 2815GF Stone Guard Film Premium

**COMING
SOON**

ORAGUARD® 2815GF is the new and specially developed high-performance stone guard film by ORAFOL. It comes with a special nanomodified topcoat. ORAGUARD® 2815GF provides high resistance to staining, superior scratch resistance, and excellent gloss retention. This new stone guard film is based on a 150 µm aliphatic polyurethane film, and it comes with the usual high protective effect against stone chips. The material will be available in the second half of 2018, and will extend the product family of high quality ORAGUARD® Stone Guard Films.

ORAFOL® Car Wrapping Seminars

Several times a year, ORAFOL hosts one-day workshop seminars for professionals employed in the car wrapping industry. At these workshops participants gain all the expertise on the application of ORAFOL® car wrapping materials. This is a truly unique opportunity if you are a newcomer to the car wrapping industry, and want to learn best practices and all the DO's and DON'Ts from the best.

The seminars are given in both German and English. As the number of participants for each seminar is limited, it is a good idea to contact us quickly if you want to reserve a space at the next event.

Contact ORAFOL for information about the next upcoming seminar:
